WEBINAR ON SOCIO-POLITICAL ASPECTS OF CLIMATE CHANGE

18 March 2022

The talk is the unique platform for interaction on aspiring careers & research prospects in liberal arts was on a very important dimension of political economy. The talk delivered by Ms Joan Shilpa Kiran from the National Institute of Advanced Studies (NIAS), Bangalore opened up scholarly discussion on social and political aspects of climate change and negating its economic interests in it. She also interacted with the students about the interdisciplinarity of the issues and

research in social sciences. She extended the discussion on how should we refer to the history of 'climate concerns' in an economy and how it has to be accounted for in modern economies. Her scholarly inputs to suffix an 'environmental cost' on all socio-economic development activities were notable. Students also actively engaged in the discussions by ways inquiring about the current and future climate concerns in India and local economies in India. Dr Justin Joesph and other researchers in the field have also added their scholarly inputs to the discussion session.
