- Our planet is choking on plastic.
- One million plastic bottles are purchased every minute around the world.
- At least 207 different species of marine wildlife are known to have suffered from entanglement or ingestion of marine debris.
- Plastic waste makes up 80% of all marine pollution and around 8 to 10 million metric tons of plastic end up in the ocean each year.
- Research states that, by 2050, plastic will likely outweigh all fish in the sea.
